

SUBJECT: API DOCUMENTATION

DOCUMENT INFORMATION

Category	Information
----------	-------------

Customer	
Project	CMS
Document	API Documentation
API Version	2.0
Document Version	2.0
Identifier	Phase 1 to 1.0
Author(s)	Puneet Chauhan
Approver(s)	
Issue Date	18-12 -2024
Document Location	Delhi

Get Started

This is the official documentation for the CMS API. Our API is based on REST principles. Each request returns a JSON-encoded body. All communication is done in UTF-8

By using CMS API, you will be able to access to multiple carrier and automate your shipping with one API integration.

Environments

API integration should be fully tested in UAT environment and then implemented in production environment.

Encryption

The customer sensitive data, for example username and password, is encrypted during the data transfer between customer to Web API. For example, it's used in Login request. The encryption key is provided by CMS Technical Support team.

Get Authentication Token

Description

Before you can start using the CMS API, you'll need API Key and API Secret and get your API token by using the below end point.. To create shipping labels and make other requests, you must authenticate your requests using the token.

Request URL

Method: POST

Live URL: <http://api.primuslogistics.in/token>

Parameters

Field	Type	Required	Description
UserName	String(20)	Yes	Username is required for access API
Password	String(20)	Yes	Password is required for API
grant_type	String(20)	Yes	(Password) Please type this text
Content-Type	Headers		application/x-www-form-urlencoded

Request

```
method: 'POST',
  url: url,

  data: 'grant_type=password&username=myuser@user.com&password=mypass',
  responseType: 'json',

  headers: { 'Content-Type': 'application/x-www-form-urlencoded' }
```

Success Response

```
{
  "access_token": "yxDrA33CFae8PrUtMN6alxkiQ4ZrIjE2wX6s9W9-
Kk3FvYc5Iebpa_ejhqhfHquOIHDDeKvOn06qHNVqboaEpr0h_ZfwRvrJanxq-*****"token_type":
  "bearer",

  "expires_in": 86399
```

```
{
  "error": "invalid_grant",
  "error_description": "Provided username and password is incorrect"
}
```

Get Tracking

Description

This Request is to get tracking details of any shipment

Request URL

Method: POST

Live URL: <http://api.primuslogistics.in/api/Track/GetTrackings>

Authorization: Bearer access token

Content-Type: application/json

Parameters

Field	Type	Required	Description
Awbno	String(20)	Yes	Tracking Number of any consignment
Account Code	String(20)	Yes	Account code of customer
Username	String(10)	Yes	Customer username
Password	String(10)	Yes	Password
Access Key	String(15)	Yes	Access Key

Request

```

Error Parameters

Field	Type	Description
Response	Int	0-Invalid Awbno
Error Code	Int	101 / 100
Error Description	String	Invalid Awbno / Shipment Tracking Details

Success Parameters

Field	Type	Description
Response	Int	0-1
Error Code	Int	0-9999
Error Description	String	This is error description
Awbno	String	This is shipment Airway bill no
ShipDate	Date Time	This is shipment booking date (YYYY-MM-DD)
Destination	String	This is shipment destination
Sector	String	This is sector
Consignee	String	This is shipment receiver name
Forwarder	String	This is forwarder your shipment
Forwarding No	String	This is Forwarding No
StatusCode	String	For Delivered Shipment - DL / DEL
Status	String	For Delivered – Delivered
Delivery Date	String	This is shipment delivered date (YYYY-MM-DD)
Delivery Time	String	This is Shipment Delivered Time
Receiver Name	String	This is shipment receiver name
EventDate	Date Time	This is shipment Event date (YYYY-MM-DD)
EventTime	String	This is shipment Event time (HH:MM)

Event Code	String	See Appendix
Event Description	String	See Appendix
Location	String	This is shipment location

Add Shipment

Description

This Request is to add shipment details of any shipment

Request URL

Method: POST

Live URL: <http://api.primuslogistics.in/api/Shipping/AddShipment>

Authorization: Bearer access token

Content-Type: application/json

Parameters

Field	Type	Required	Description
CustomerCode	String(6)	Yes	This is customer Code
CustomerName	String(150)	Yes	This is customer name
ThirdPartyLabel	Boolean	Yes	For Third Party Label -True For FedEx Label -False
DestinationCode	String(30)	Yes	See Appendix
ConsignorName	String(35)	Yes	This is sender name
ConsignorAddressLine1	String(35)	Yes	This is sender address line1
ConsignorAddressLine2	String(35)	Yes	This is sender address line2
ConsignorAddressLine3	String(35)	Yes	This is sender address line3
ConsignorCity	String(35)	Yes	This is sender city
ConsignorPostCode	String(7)	Yes	This is sender pin code
ConsignorState	String(35)	No	This is sender state
ConsignorPhoneNo	String(25)	No	This is sender phone no
GSTType	String(25)	Yes	GSTIN (Normal) GSTIN (Govt Entities) GSTIN (Diplomats)

			PAN Number TAN Number Passport Number Aadhaar Number Voter Id
GSTNO	String(20)	Yes	This is GSTIN Number
ConsigneeName	String(35)	Yes	This is consignee name
ConsigneeContactPerson	String(35)	Yes	This is consignee contact person
ConsigneeAddressLine1	String(35)	Yes	This is consignee address line1
ConsigneeAddressLine2	String(35)	Yes	This is consignee address line2
ConsigneeAddressLine3	String(35)	Yes	This is consignee address line3
ConsigneeCity	String(30)	Yes	This is consignee city
ConsigneeZipCode	String	Yes	This is consignee zip code
ConsigneeState	String	Yes	This is consignee state
ConsigneePhoneNo	String	Yes	This is consignee phone no
ServiceTypeCode	String	Yes	This is service code (See Appendix)
ServiceType	String	Yes	This is service type
NetworkCode	String(03)	Yes	This is Network Code
GoodsDesc	String	Yes	Values Dox for Document NDox for Sample
NumofItems	Int	Yes	This is no of shipment
ActWeight	Decimal	Yes	This is actual weight of shipment
VolWeight	Decimal	Yes	This is Volume weight of shipment
Length	Decimal	No	Length of shipment
Width	Decimal	No	Width of shipment
Height	Decimal	No	Height of shipment
Pcs	Int	No	Pcs of shipment
CustomsValue	Decimal	Yes	Shipment value
CustomsCurrencyCode	String	Yes	See appendix
ShipmentContent	String(35)	Yes	This is content of shipment
ItemDetail	List Object	Yes	For DHL Shipment Mandatory
CSB_Type	String(1)	Yes	Y/N
